DEMO UNIVERSITY (FIXTURE DATA - NOT REAL)

B.Tech Computer Science - Programme Handbook

CS101 Introduction to Programming

Unit 1: Programming Fundamentals

Topics: variables, control flow, functions, recursion

Course Outcomes

- Write basic procedural programs
- Debug simple logic errors

CS301 Machine Learning

Unit 1: Supervised Learning

Topics: regression, classification, decision trees, neural networks

Unit 2: Deep Learning

Topics: backpropagation, CNNs, transformers

Course Outcomes

- Train and evaluate a supervised model
- Explain the bias-variance tradeoff

CS405 Cloud Computing

Unit 1: Cloud Fundamentals

Topics: virtualization, containers, AWS, GCP

Unit 2: Orchestration

Topics: Docker, Kubernetes, CI/CD pipelines
